

We all need Faith

Written by Connie Candle Yokeley

Verse 1

Manny of times I've heard you say,
I don't think I can face another day.
Burdened in this world of strife,
Struggling to live a pure life!

Verse 2

Weary and unsure what we should do,
We strive to know which way to choose.
Tired of our daily care,
Relief we seek through our daily prayers!

Verse 3

Our journey through life is tough, it's true,
But a difference can be made by me and you.
Using our faith every day,
We can help others find their way!

Chorus

We all need Faith in our hearts,
Cause that's how pure love truly starts.
Just ask Him in and you will see,
How strong His saving grace can be!
